commit **da779513d33575fc43a9ae87a95af6b4354cebaa**
Author: Geert Uytterhoeven <geert+renesas@glider.be>
Date: Wed Mar 21 09:07:23 2018 +0100

spi: sh-msiof: Use correct enum for DMA transfer direction

Use enum `dma_transfer_direction` as required by
`dmaengine_prep_slave_sg()` instead of enum `dma_data_direction`.
This won't change behavior in practice as the enum values
are equivalent.

Working with the kernel development community

So you want to be a Linux kernel developer? Welcome! While there is a lot to be learned about the kernel in a technical sense, it is also important to learn about **how our community works**. Reading these documents will make it much easier for you to get your changes merged with a minimum of trouble.

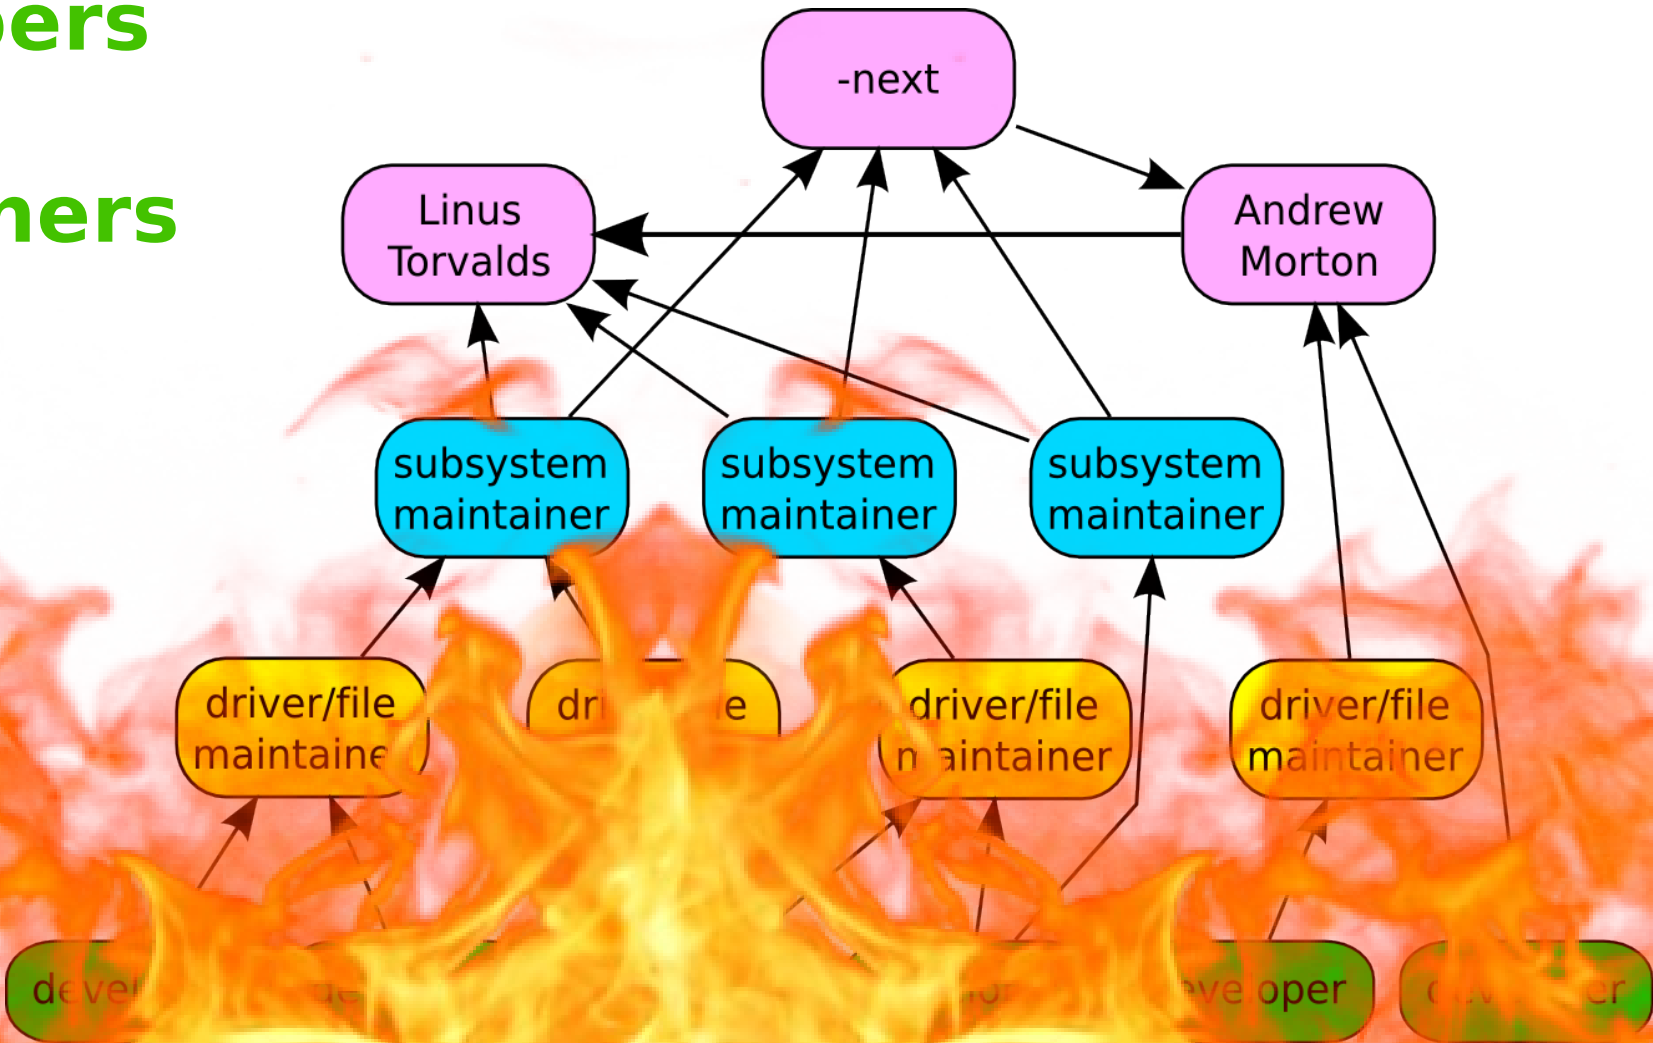

Below are the essential guides that every developer should read.
